## **TREE SAVER PROGRAM**

**Saving Hemlock &  
Ash Trees from  
Certain Death...  
1 Tree at a Time**

845-586-3054  
[www.catskillforest.org](http://www.catskillforest.org)

**"Providing Services &  
Education to Landowners  
to Create Healthier Forests."**

## WHAT'S KILLING THEM?

- ♦ Ash is being devastated by Emerald Ash Borer (EAB—*Agrilus plenipennis*)
- ♦ Hemlock is being plundered by Hemlock Woolly Adelgid (HWA—*Adelges tsugae*)

## SHOULD YOU SAVE YOUR TREE?

- ♦ Yes, if the following fits your scenario:
  - (1) You live in an area where ash & hemlock are being threatened
  - (2) You have 1 or a few trees you just can't live without; forest treatment is not practical in most cases
  - (3) Cost of removal is too high; removing an ash or hemlock near your home can cost \$1,000—\$3,000

## HOW WE SAVE YOUR TREE

- ♦ CFA staff is NYS DEC Certified to apply chemical treatments to your trees
- ♦ Chemical treatment occurs during the growing season
- ♦ Chemical treatment is a safe & inexpensive alternative to removal
- ♦ Chemical treatment buys time in case other methods arrive (biological, etc.)
