

11-14-2019

Good Afternoon all!

Following our very successful annual meeting it will be good to get back into the swing of things. We look forward to a busy year ahead and are anxious to see what innovations our staff come up with. I would like to welcome Kathy back to work following her surgery, congratulations to Patrick following his wedding in September, and let's look forward to the new Executive Director of the O'Connor Foundation, Amy Warner, and their move to Sherwood Road in Delhi, NY.

Scheduling for 2020 is progressing, and it looks like apple tree pruning is leading the way during the upcoming year. By midyear will see the Tree Saver Program being heavily scheduled, as well. Our Timber Management Program is thriving, as is the Wildlife Habitat Management Program this year. Those of you who saw the Sawmill Demo at Norm's are aware of our unique Portable Sawmill Program where we can offer forest owners a chance to realize their forest value in a very new way. I'm excited about this new program.

Let's have a good year-end and go hard into the new year!
